CMCC Doc. No. 151X5.107

Copy 1 of 2

Page 1 of 1

May 18, 1956

Dear George:

An analysis of field experience has indicated that certain modifications should be made in the Fly-Away Kit List, the 180-Day Support List for System One, and the Unit Essential Equipment List for Systems One and Three. The attached summary of changes shows the modifications to be made to the lists submitted with our support proposal of 24 January 1956, CMCC Doc. No. 151.772.

Basically, these changes will add to the cost of the support equipment. The deleted items have already been procured and some have been shipped. The deletions, with the exception of those from the UEE list, therefore become surplus. The added items will have to be procured at added cost. The attached list shows approximate prices for these items and the resulting additional estimated price, including fee, is \$ 2,887.60.

These changes have been submitted directly to Bob, and will be incorporated in subsequent shipments to him.

Two unit prices have been changed and are included in the above modifications. MP-30003 and MP-30005 have increased substantially in price and the new prices were used, along with the increase in quantities for these items. The total additional estimated price above includes the net increase in price for these two items.

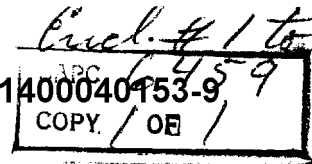

Your approval is requested for the additional procurement involved.

Sincerely,

*Bob*

Bob

*O.K.
